

Bosik Technologies Limited has developed a Warning Shot Target (WST) and Practice Range Target to be used inside institutions and outside in practice ranges. The targets are designed to prevent penetration and ricochet and increase life expectancy. Available to suit small calibre hand guns and up to .30 calibre rifle, ballistic rated up to NIJ Level IV.

Warning Shot Target

Warning Shot Target Features:

- Prevent penetration and ricochet of the selected weapons
- Fire retardant and lead absorbing
- Low cost and light weight
- Absorbs multiple shots
- Wall or ceiling mountable
- Secured fastening or welded nuts to prevent removal
- Steel angle border to prevent the bullet from escaping the target when shot at an angle

Practice Range Target

Practice Range Target Features:

- Indoor or outdoor use, non-ricocheting
- Bullet trapping and lead absorbing
- Integral stand and lifting handles
- Replaceable high impact mid-section
- Modular and light weight
- Accommodates large number of rounds
- Floor or In ground custom mounting brackets

**US Patent Number
7,475,880 B2**

**Practice Range Target Showing
Replaceable & Removable Sections**
