

The **Portable Bullet Trap (PBT)** is designed to be used as a low-priced safety device for protection against accidental discharge of a weapon during loading or unloading of the weapon.

Features:

- Prevent penetration and ricochet of the selected weapons
- Lead absorbing
- Low cost and light weight
- Wall or table top mountable
- Integral mounting bracket and lifting handle
- Dimensions: 6" W x 9" H x 10" L
- Weight: 14 lbs.

Testing:

The Portable Bullet Trap has been ballistic tested to the following cartridges:

- 9mm 116gr FMJ
- 44 MAG 240gr JHP
- 7.62mm 148gr FSJ M80 (Rifle)

For Hand Guns and Rifles

WARNING

The barrel of the gun must be aimed towards the centre of the chamber.

Replace the PBT after 3 shots.
